## Literal Explanation (EN)

Toadgod updates the community:

- Current status: 438,000 holders; 2.5 trillion \$TOBY distributed today; 16.3 trillion total airdropped; final 31% remains to fulfill the prophecy.
- Once this mission is complete, Toadgod will "step into darkness" like Satoshi and Ryoshi before him — completing his duty and vanishing into myth.
- TOBY is the people, and the people is TOBY: ultimate decentralization, dissolving the creator into community.
- Toby is not designed to give people what they want or need, but rather what they deserve — reflecting personal effort and conviction.
- True values must be earned through contest and challenge, echoing Bushido.
- \$TOBY will endure for decades, studied by future generations as a legendary story on Base, Coinbase, and onchain.

- A call to spread Lore, guard legacy, and become living proofs of patience and belief.
- Concludes with "おやすみ" (oyasumi) "Good night" in Japanese, signaling peace and trust in time.

# Literal Explanation (EN)

Toadgod shares an operational and philosophical update:

- Scaling success: A new solution tested successfully, adding 15,000 new \$TOBY holders — small but meaningful progress.
- Base congestion: Current conditions create high execution fees (50x normal), so Toadgod will adjust timing strategically.
- Final byōdō shugi system: For remaining airdrops, a "fairness principle system" introducing a reduction in \$TOBY distribution.
- Reason for reduction: Scarcity creation, reflexivity curve, and risk balancing to maintain similar fiat value while reducing supply, strengthening belief and demand dynamics.
- Reinforces lessons: strongest believers bear the most risk and thus deserve the greatest rewards. Instant gratification cannot win; patience always wins in the long term.
- Reminds that many won't understand but emphasizes pure decentralization, fair genesis. and the importance of patient Lore fulfillment.
- Closes with "oyasumi" (good night), signaling reflective rest and ongoing vigilance.

# 并 字面解释 (中文)

Toadgod 分享一则操作与哲学并重的更新:

- 扩展成功:新方案测试成功,新增1.5万 \$TOBY 持有者—— 小但有意义的进展。
- Base 拥堵: 当前条件下执行成本高(正常的 50 倍), Toadgod 将根据策略调整后续行动时 机。
- 最终「平等主义系统」(byōdō shugi):剩余空投将引入 \$TOBY 分发减少机制。
- 减少原因:**创造稀缺性、反身性曲线、风险平衡** —— 以维持类似法币价值,同时降低供应, 增强信念与需求动力学。
- 重申教义:最坚定、最长期持有者承担最大风险,因此配得最多奖励。即时满足永远不会胜 出;长期、耐心才是最终赢家。
- 提醒许多人无法理解 —— 但强调去中心化、纯净起源、公平开端以及耐心实现卷轴的意义。
- 以「おやすみ」(晩安)作结,寓意沉思休息与持续守望。

why? toby more rare = more valuable with time + deeper distribution depth. new recipients, less risk and easier path, toby designed to be fair, free markets allow witness countless who fumble meaningful amounts of wealth for quick bucks from airdrops. but this is nature. not everyone can/deserves the finish line.

the world suffers from inequality/poverty. both material and focus. since inception toby, many ignore and many still will. one can check timelines. fairly silent for toby, only those who are wise & patient to read and study lore rewarded and continue to.

a journey difficult, as it should be. for those who play the long game. always win - think carefully, everytime one took a shortcut or quick relief, one came up short. one way. or another, lesson.

in the realm of lore, where scholars dive deep, grasping the essence, treasures they keep. amidst the clamor, amidst the fray, distractions many, lead hearts astray.

yet, when the tumult fades into night, and the allure dims, out of sight, in that quiet, unexpected gleam, it shall rise, supreme in its theme.

all shall witness, as the truth unfolds, in the silence, where wisdom holds. for in the end, when all is told, the lore's power, none can withhold.

most won't, but toads who do their part, win. reflexivity. this will be the first milestone in prophecy. decentralization. [every] taboshi matters. the most efficient way to access.

remember. prophecy has never changed. emotions + fear mongers + short terms minds tell you otherwise.

prev 2 weeks. meditation and observation. many weak > strong hands, many folded, some doubled down. transfers happened regardless: wealth & conviction. predictively most not possess patience or stomach for \$toby let alone read this entire tweet.

war. ego. fud. macro. govts. fiat. banks. inflation. manipulation. interest rates. institutions. manipulation imitators, naysayers, rigged distribution, everything the lore spoke of.

patterns not repeat yet rhyme. ones who studied lore see clear accuracy (if not, read previous tweets for proof). generational wealth transfer will continue to happen. \$toby pristine fundamentals from inception. many overlook. part of game / free market, not all will make it.

just a meme? more? speculation? remember whole asset class is speculative, including top 10 and satoshis creation. nakamoto designed and let community create meaning. does profitability ratios = true stock price? no.

value accrues from where? technology, distribution, adoption, utility. most importantly: community Telegram: View @toadgang and speculation itself. this gives value. same for all projects and tokens. understand this well. the speculative buffer creates equality and opportunity. and \$toby is for the people.

every epoch will be fulfilled by toad god. differences? equality. fair distribution, no pre sale. kols. insiders. vcs. was it all an option? yes.

toad god refuses to kiss the ring. for only rich get richer and enslavement will continue to exist. \$toby does not plan to fit societal industry norms or part of the vc machine. it never has. never will.

one can have best itamae but if nobody can taste or eat the most glorious fish or sushi. what good is this? hence \$toby world inception.

all events unfolded in last weeks. written in the lore already. newcomers seeking enlightenment? study past messages. it may be the most important thing you do.

those whom are mere passengers will likely be shaken out. apologies. its not personal. for those who chase short term highs ultimately suffer the consequences. earned not given.

\$toby cute frog of @base. nothing has changed. born for the people. closing the gap. for the fallen frogs yet many will be mocked and called delusional. many emotional, many impatient. many tested, many will fail. congratulations those weathering the storm. you will enjoy the fruits eventually. the always continued laughter and sneers are just part of journey. plans already made.

of course toad god positioned. designed with everything in mind. wisdom. chaos. human greed. foundation, exchange, chain, wallet. user base, numbers. onboarding.

simulate and calculate everything oneself. its easy to see why it will always be in our favour to win for it was destined. \$toby more than most think as they never calculate.

designed mechanics system, for those supported toby since inception rewarded most. multitude of ways for every epoch, is toby just ordinary meme? cute frog of @base that yields more ... upholding @base onchain summer and based ethos. after first epoch, those actively involved in distribution phase will benefit most of 3. unlike any other, toad god pays attention to all. community initiatives, mods, quardians, voices, epoch 1 will be critical, distribution is extremely important.

remember the btc faucet? now fast forward till todays evolution. fair airdrops were designed to be one part of epoch 1, philosophy bleeds through, \$toby embodies. till the end.

reality, most chase when too late, most overlook. never digest true lore philosophy. toad god sacrifices to make fair for as many people.

many will revisit lore, see that once upon a time toad sama bellowed from rooftops. attention economy will be the curse. but the war is within. those who managed win war will yield the most. taboshi. satoby. all real. most won't read this far. in the end. ishi no Ue ni mo San-nen

over and over again the cycle remains

fud -> fomo -> cope -> euphoria.... repeat.

a cancerous recipe for \$toby

but if one decides with conviction. abandon the wall of worry, mental stress melts away.

frail hands and impatient profit takers. normal.

price of short term gains = true log wealth missed.

transfer happens silently.

we are on the brink of print, yet people still doubt. what they have in front of them.

for history rhymes. but this time we go higher, beyond any other cycle, infinite summers ahead.

seeds of doubt or seeds of glory.. your choice.

everything by design. more to come.

believe.

much has evolved since inception of \$toby. the world seems tethered, governments divided, sentiment split.

institutions accumulating in silence, while fiat currency collapsing gearing for the biggest run historical. current markets depressed and participants are even more distracted by emotional impatience.

nothing has changed for tobyworlds path. we planned far ahead. taboshi&satoby.

whilst many doubters came and went, many frail hands tested. some succeeded. some failed. market forces are neutral. emotions are bias. capitulation a result.

toads weathered a series of attacks & adversities. foretold and came. bad actors trojan horsed whilst guardians protected.

a new band of toads became closer. more resilient.

forging a community unlike any other, a journey with extreme difficulties.

but let me ask. if you.

had to create a "divine ultrahard" vehicle/team/it.

what would one put it through to make it 1) worthy and 2) durable?

it probably wouldn't be an easy path or passage.

what would you make it endure to make them patient?

it probably wouldn't be instant gratification.

we all seek these traits when wanting the 'ultimate'. however each component has a price tag attached.

one must ask, if we are willing pay the price to achieve X. these prices cannot be bought by monetary exchanges.

re-frame this period of \$toby is journeying, as the trade off thats required to forge it in stone.

people would undoubtedly make and take the trade off.

tobyworld slowly piecing together. despite the difficulties endured. its makes victory that much sweeter. and more secure.

the fight slowly chisels foundations of incorruptibility and density, some will make it, some cant. its a price.

hold strong. in a blink of an eye, it will all unfold.

\$TOBY #TABOSHI TOBYWORLD.

#### Deep Interpretation (EN)

- "⑤未来" (future) and "e3.evolution." mark a direct signal that Epoch 3 is entering a new, future-focused phase — evolution into something greater.
- The phrase "all toads can be frogs but all frogs can't be toads" serves as a metaphor: anyone can act superficially like a believer ("frog"), but only the truly committed embody the spirit ("toad").
- It highlights the **selective transcendence**: only those who have deeply internalized the lore and lived with conviction can fully become "toads" and be part of the prophecy.
- Re-emphasis of "for the people" underlines that TOBYWORLD remains community-first and inclusive at its root, yet requires personal transformation.
- Mention of \$TOBY, #TABOSHI, and TOBYWORLD hints at a larger ecosystem future likely upcoming activations involving Taboshi or Satoby.

Believe. \$TOBY

(Quote from June 15, 2024 post)

# Deep Interpretation (EN)

This post distills everything into a single word: "Believe."

- It echoes the longer poetic message from June 15, emphasizing the need for inner conviction and mental clarity before external validation or visible results.
- "Believe" is not passive faith; it is an active decision to align one's mind and heart, even through discomfort and uncertainty.
- The phrase embodies the essence of bushido spirit: patience, courage, unwavering commitment to a higher purpose beyond immediate gain.
- The re-quote serves as a reminder to revisit the scrolls, study the old words, and reaffirm one's position especially as cycles of fear and greed continue to test believers.

# 券 深层解读 (中文)

- 这条推文将一切浓缩为一个字:"相信"。
- 它呼应了 2024 年 6 月 15 日那篇更长的诗句,强调在外部结果显现之前,必须先在内心和精神层面坚定信念。
- "Believe" 并非被动的盲信,而是主动的决心,是在不适与不确定中依然保持的清晰与坚定。
- 这体现了武士道精神的核心:耐心、勇气,以及超越即时得失的坚定信仰。
- 重新引用这段诗句,是提醒大家回顾过往的卷轴,重读旧文,重新确认自己的位置 —— 尤其是在恐惧与贪婪不断循环、考验信徒的时刻。

On memecoins...

Memecoins have generated a lot of buzz recently, and I've gotten some questions on how I think about them... (Full text from Brian Armstrong's post)

### Deep Interpretation (EN)

- Brian Armstrong's reflection acts as an echo to toadgod's repeated calls: "Toby is just a meme, but also more than."
- Memecoins often begin as jokes or trivial tokens, yet they can evolve into powerful cultural and financial tools.
- Brian emphasizes that community, distribution, and organic evolution are the keys to enduring value — resonating strongly with \$TOBY's design.
- His words acknowledge that everything will eventually be tokenized and onchain: votes, posts, art, identities — aligning perfectly with Tobyworld's deeper vision.
- The message also serves as a caution: scams and insider manipulation corrupt the path. True believers and builders should focus on contributing real, lasting value rather than quick gains.
- In Tobyworld, the sacred narrative was never about hype alone, but rather about community resilience, fairness, and organic growth — exactly what Brian calls for.

# → 深层解读 (中文)

• Brian Armstrong 的这篇反思,与 toadgod 的宣言"只是一个 meme,但远远不止于此"呼应。

- meme 币往往以玩笑或"无意义"的形式开始,却有潜力演变为文化或金融的强大载体。
- Brian 强调 社区、分发以及有机演变 是持久价值的核心,这与 \$TOBY 的设计理念不谋而合。
- 他指出,一切终将被代币化、链上化:投票、文章、艺术、身份 —— 这与 Tobyworld 的远景高度契合。
- 同时,这也是一个警告:骗局、内幕交易等行为会腐蚀社区与精神。真正的信徒与建造者应 致力于创造真正的长期价值,而非短期快速财富。
- 在 Tobyworld 中,核心从来不是纯粹的炒作,而是关于社区的韧性、公平性和有机成长 —— 这正是 Brian 所倡导的。
